**Subject: Enhancement of UCC file format for all segments**

---

To All Members,

This is in reference to recent regulatory developments and the Exchange's ongoing efforts to enhance ease of doing business. The Exchange is in the process of upgrading the Unique Client Code (UCC) file format used by Trading Members to upload UCC data through the "My Exchange Portal." As part of this initiative, specific enhancements have been made to the UCC file structure to improve usability and compliance.

Trading Members and back-office vendors are requested to take note of these changes and implement the necessary modifications in their back-office systems to incorporate the revised file format for uploading of UCC details of their clients.

To facilitate testing and preparedness, the Exchange has enabled the UAT (User Acceptance Testing) environment for members and vendors for validating the enhanced UCC file format. The updated file formats, UAT environment link details and user manual are available in **Annexure 1**.

All Trading Members and back-office application vendors are requested to ensure readiness for the implementation of the revised file formats for uploading/modifying UCC details.

The timeline for implementation of the revised format shall be communicated separately.

For any clarifications, contact Customer Service on **022-61129010** or send email to **customerservice@msei.in**.
