COMMUNIQUE TO DEPOSITORY PARTICIPANTS

CDSL/OPS/DP/SYSTEM/2025/720

October 28, 2025

CHANGES IN OFF-MARKET AND INVOCATION TRANSACTION PROCESSING

Depository Participants (DPs) and Clearing Members (CMs) are hereby informed that a new transaction status, “**Overdue – Insufficient Stamp Duty**,” has been introduced for **off-market transactions** and **invocation of normal pledge transactions**.

This status will apply in cases where there is an **insufficient stamp duty balance** in the Beneficial Owner's (BO) account or the DP's account at the time of transaction execution.

The CDSL system will verify the availability of the **stamp duty balance** for such transactions until the **end of day (EOD)**.

- If sufficient balance is made available in the respective DP's or BO's account within this timeframe, the transaction will be **settled successfully**.
- If the required stamp duty balance is **not available by EOD of the execution date**, the transaction will be **cancelled during EOD processing**.

New Transaction Status will be introduced in **DP37** report as “**Z - Overdue – Insufficient Stamp Duty**”.

Below are the standard values of transaction status and transaction code for **DP97** report which will be introduced for the above-mentioned functionality:

TRANSACTION STATUS	TRANSACTION CODE
SDPO (Stamp Duty Payment Overdue)	ODISD (Overdue – Insufficient Stamp Duty)

DPs are advised to note that the said functionality is tentatively scheduled to be released on October 31, 2025.
