In reference to the Exchange Circular No. NCDEX/TECHNOLOGY- 041/2025 dated 19th November 2025 on SSL VPN connectivity to access NEXTRA application over the internet for SEBI Regulated Entities (REs), the Exchange had earlier announced that access to the NEXTRA Application over the Internet shall be available only through SSL VPN to ensure secure, encrypted communication between member systems and Exchange infrastructure.

The Exchange has provided a new setup with the DNS address for NEXTRA file uploader and NEXTRA Unified file uploader on the path provided in Annexure A. Members are requested to take backup of existing respective application folders and download and extract new setups.

Please note apart from the DNS address changes in the configuration files, there are no changes in the application functionality of the current application version.
